4-Port PS/2 KVM Switch

Product Overview
The KVM-0412 4-Port PS/2 KVM Switch from LevelOne offers users with an easy to install KVM switch that can manage four computers from a single monitor, keyboard and mouse.

It allows users to access, control, boot and reboot four PS/2-enabled multimedia computers using a single PS/2 keyboard, mouse and monitor.

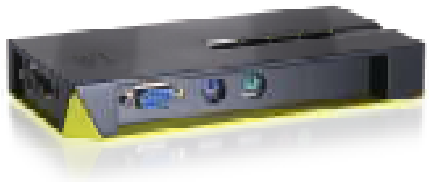
Flexible Multi-Computer Management Feature
Users are now offered with flexible multimedia support. The KVM-0412 offers users with user-programmable simultaneous or independent PC and audio switching. This enables users to work on one computer while simultaneously using the other computers for work or fun.

One Keyboard, Mouse and Monitor controlling Two Computers
The LevelOne KVM-0412 connects four computer systems to a single PS/2 keyboard, PS/2 mouse and monitor.

The KVM-0412 is a Plug-and-Play KVM switch that requires no power supply and no additional software installation. Users simply connect the KVM switch to the PS/2 mouse and keyboard and screen ports on each computer as well as the audio ports by using the included cables.

Easy to Switch between Computers
The KVM-0412 switches between computers either through the pushbuttons located on the switch or by using keyboard hot keys. The KVM switch also offers user the ability to program the auto-scan function for automatic switching between computers.

The LED display offers an "at-a-glance" status display for easy computer activity assessment.



KVM-0412
